INFUSION ASSOCIATES REMODELS

THE OPPORTUNITY

A local and growing company, Infusion Associates was looking for an aggressive and widespread expansion of their spaces and brand. Through relationships and reputation IA found Honor Construction. Honor came into the relationship for an emergency project and exceeded expectations on budget. Soon after a long-term contractual partnership was solidified.

TIMELINE

Various but aggressive based on the site and conditions.

SCOPE

Honor executes a very comfortable, healthy and warm space while patients receive their infusions. Renovating existing spaces that maximize natural light, clean surfaces, and warm lighting.

MAKING IT HAPPEN

Every project has a goal to become more and more efficient for the owners and team. Constantly looking to buying power, procurement supply chain, and deciding on master finishes.

WHAT THE CLIENT HAD TO SAY

“ Honor’s team provides a uniquely hands-on, project management approach. They have vast industry knowledge, are agile in their response to shifts in market trends, and are persistent in advocating for our benefit. We have been extremely pleased with Honor’s communication and their willingness to pivot based on our everchanging needs. ”
