

JAKU SUSHI

THE OPPORTUNITY

Jaku Sushi & Grill, a well-known and well-liked sushi restaurant located in Caledonia, Michigan, opened its first location in 2014. Consumer demand played a key role in their decision to open a second location on the East Beltline, just north of Knapp Street. The new, 2,220 square foot location is larger to accommodate guests, but it still serves the food items Jaku is best known for: bento, sushi burritos, bibimbap, rolls, and more.

TIMELINE: 12 WEEKS

SCOPE: TOTAL RENOVATION

MAKING IT HAPPEN

Honor Construction worked closely with Jaku's owners to design and build the space. It incorporates mixed seating areas to accommodate various seating arrangements and unique lighting to create a chic and inviting environment. Daily communication with Jaku was important to ensure deadlines were met, the restaurant opened on time, and all parties were happy with the end result.

WHAT THE CLIENT HAD TO SAY

“Honor Construction transformed an old, outdated space to a sturdy, beautiful one – and made sure I was happy throughout each step of the process, quickly resolving any issues that arose. I could always count on Honor. I'm extremely satisfied with their results and believe they will be the team I work with on any future projects. If you're looking for a construction team that knows your needs and wants and cares for them even after a project is completed, Honor is the one you should go with.”
